Reasons For Allowance

1. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of the claims is based on the inclusion of the limitation of "at least one participant server having an IP address and electrically communicating with said main server; said at least one participant server not receiving the request for information from the client, but rather said main server receiving the request for information over the Internet from the client and requesting over the Internet that said at least one participant sever send the requested information over the Internet back to the client, and if said at least one participant server does not have the requested information, the requested information is downloaded from said main server to said at least one participant server, and when said at least one participant server sends the requested information over the Internet back to the client, said at least one participant server assigns to the requested information said IP address of said main server and not said IP address of said at least one participant server." In claim 1. The prior art, Brendel et al. U.S 5,774,660, Leighton et al. U.S. patent # 6,108,703 do not disclose this limitation. "The main server sends the requested information to the participating server when the selected participating server does not have the requested information" (see Decision On Appeal, page 7, mailed on 15 February 2005).

2. The Examiner's interpretation of the claim language is also based upon Applicant's the enabling portions of the specification, (Fig. 2, page 13) and Decision On Appeal, page 7, mailed on 15 February 2005. Therefore, Applicant's instant claims are considered to be allowable

Art Unit: 2142

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
4. **Claims 1-6** are allowed.
